

## **Safe Schools/Healthy Students National Evaluation School Climate Survey—Staff Version**

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0297. Public reporting burden for this collection of information is estimated to average 7 minutes hours per client per year, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 1 Choke Cherry Road, Room 7-1044, Rockville, Maryland, 20857.

Your school would appreciate your completing a short staff School Climate Survey (SCS) to support the work of its federally funded Safe Schools/Healthy Students (SS/HS) grant. The survey is part of the National Evaluation of these grants. Your participation is voluntary, but it is very important for your school. The survey begins on the next page.

- The information you provide will help improve the district's SS/HS grant and guide its efforts to improve student achievement and the school climate, enhance learning supports, promote safety, and reduce health risks that stand as barriers to learning.
- Your answers to the survey questions are completely anonymous and confidential. This survey provides an opportunity for you to communicate anonymously in a neutral context your perceptions about the learning environment at the school, the challenges you experience, and your concerns about the school and student behavior.
- Neither your school nor district are being rated or evaluated based on the results. The National Evaluation is examining the effects of the SS/HS Initiative as a whole.
- What information does the survey collect? The main focus of the survey is to assess school staff perceptions of the learning environment in the following areas:
  - Academic norms, standards, and priorities
  - The working environment in the school
  - Learning supports and barriers
  - Staff-student relationships and staff supportive relationships
  - Student connectedness to the school
  - The problems posed by student risk behaviors (substance use, violence, and truancy)
  - Staff and student safety
  - Nature, communication, and enforcement of school rules/policies
  - Availability of health and counseling services

School name: \_\_\_\_\_  
(Please spell out name in full, including elementary, middle, or high school.)
